

LIFETIME LIMITED MATERIAL WARRANTY

ECB, ECB 75, Strataflex, SAM³ and Super SAM 125 Membranes

National Applied Construction Products, Inc., will replace any ECB, ECB 75, Strataflex, SAM³ or Super SAM 125 membrane proven defective for the life of the original floor. Satisfactory results depend not only on quality products, but also upon factors beyond our control. Therefore, liability, if any, is limited to replacement of our products. Any claim regarding product defect must be received in writing. No claim will be considered without such a written notice.

EXCEPTIONS AND EXCLUSIONS: Professional installation is required. This limited material warranty requires the use of NAC's Primer in accordance with the installation instructions and an approved tile installation system meeting ANSI A118.4 requirements. It does not cover damages or failures as a result of:

- A) Improper application or installation of the ECB, ECB 75, Strataflex, SAM³ and Super SAM 125 underlayments, setting materials, or other materials associated with all or part of the system.
- B) Natural disasters (i.e. acts of God, earthquakes, substantial shifting of the substrate, floods, etc.)
- C) Tile not suited or designed for intended use, defective tile, cracked, powdering or discolored grout joints, abrasion from external forces or damage by any acts of negligence, accidents or misuse by anyone. A few general examples include, but are not limited to: walking on or moving heavy equipment over the tile and Membrane system before the system reaches full curing cycle, exceeding the maximum load requirements of the tile and Membrane system, dropping heavy objects on the tile floor, construction within the building causing damage to the floor, etc.
- D) Failure of building owner, installer and/or distributor, depending on the circumstances, to comply with the terms, conditions and limitations stated herein and the National Applied Construction Products, Inc. Terms and Conditions of Sale (incorporated herein by reference) including, but not limited to, payment in full of all invoices for material.
- E) Failures caused by hydrostatic pressure, moisture vapor transmission, faulty construction of the substrate, substrates that do not meet minimum industry standards, vertical displacement and lateral movement of the substrate beyond the limitations and capability of Membrane.
- F) Defects or failures of the tile installation materials, floor leveling/patching materials, grout, sub-flooring, or other products which may affect the performance of the entire floor.
